

Meter Technician

GrandBridge Energy Inc. is guided by a vision to be a leader in energy transformation and driven by a mission to bridge communities to the energy future. GrandBridge Energy delivers safe and reliable electricity to 111,000 customers in the City of Brantford, the City of Cambridge, the Township of North Dumfries, and the County of Brant. Our talented employees fulfil our mission to help our communities bridge the transition towards an evolving and dynamic energy future. Our values are the principles and beliefs that guide our operations.

GrandBridge Energy is looking for a Meter Technician to join our growing team. This union role will report to our Bishop street office in Cambridge.

Major Responsibilities:

- Install and maintain all single-phase metering, poly-phase metering and automated meter reading equipment and systems to applicable standards.
- Assist as required with the design, planning, coordination, operation, and maintenance of all metering systems as per Measurement Canada and other legislative requirements.
- Effectively use computers and various types of metering vendor and third-party software and testing equipment.
- Perform meter changes as part of the annual meter reverification plan to maintain compliance with Measurement Canada.
- Prepare job plans for projects to facilitate meter maintenance on various metering systems.
- Troubleshoot problems with metering systems, AMI Network communication, modem/communication equipment and telephone lines as required.
- Maintain and program electronic metering hardware, software, and testing equipment.
- Organize meters that are being re-verified by accredited meter testing contractor.
- Ensure all required tasks are completed in accordance with the Occupational Health & Safety Act & Regulations, the Electrical Utility Safety Rules, and GrandBridge Energy's Policies & Procedures.
- Check quantities of meter and metering equipment inventory and relay information to Metering Sub Foreperson.
- Perform installation, removal and maintenance of all metering equipment and systems, including troubleshooting, cross phase, and accuracy analysis, etc.
- Demonstrate a customer focused approach and strong interpersonal skills when dealing with customers and stakeholders.
- Contribute to a positive workplace culture by fostering collaboration, maintaining a positive attitude, supporting our customers, and contributing to a respectful and inclusive environment.

Qualifications:

- College diploma in Engineering Technology (Electrical or Electronic) or equivalent experience.
- Journeyman Meter Technician Certificate or working towards. If an apprentice, must be willing and able to be registered and complete the MEARIE Metering Technician training program. Journeyperson candidates will be preferred.
- Electrician's licence would be considered an asset.
- Valid Class "G" vehicle licence.
- Thorough knowledge of the specifications and safe work practices in the E&USA Rule Book, ESA Regulation and OH&SA essential.
- Extensive experience in all aspects of Utility metering systems construction & maintenance.
- Excellent communication, planning, problem solving and interpersonal skills.
- Physically able to handle heavy metering equipment and work in inside and outside environments.
- Proficient in the use of hand and power tools in the construction of metering installations.
- Excellent computer skills including related software applications and networking.

We offer an excellent working environment, career path exploration and development opportunities, a comprehensive total rewards package, and opportunities to get involved with teams and charitable events that support and make a difference in our community. To become a member of our team, please forward your resume by **April 1, 2024** to careers@grandbridgeenergy.com. When applying for the position, please quote "**Meter Technician**" in the subject line.
